enviroment: Kutikai guarantees eco-friendly manufacturing process and safety of all materials used to manufacture this product.

Bed size is adapted to standard size mattresses.

KUTIKAI

FUNCTION

The height of the bed allows to put the baby comfortably into the crib without leaning over too much. The height of the mattress is adjustable: first level is for newborns till the baby becomes more lively and learns to roll over, second level – for more active kids till they learn to sit, third level – for when our little ones practice getting up until they become clever enough to try to climb out of the crib. An additional safety rail is available to help the child get in and out of the bed fully unassisted.

DESIGN

The Peekaboo Collection designed by Kutikai is simple in form and has one distinctive feature – a hole which attracts children with its familiar shape and makes them want to explore what’s on the other side or – play peekaboo.

Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland under strict designers’ supervision.

The collection also stands out for its legs covered with natural veneer – modified oak which make it exceptionally light.
