KUTIKAI

FUNCTION

The convertible bed set 140x70 in form of a house is supplementary to the crib and is especially designed for toddlers that have just discovered the sense of independence. The mattress is placed at the lowest level so that the toddler can get in and out of the bed unassisted. The bed is transformed very easily, just unscrew one side and mount the convertible set.

DESIGN

The Roof Collection designed by Kutikai brings out the exceptional nature of plywood. It comes across the needs of a modern parent and truly makes children smile. The rungs are unevenly arranged with varying width, the narrowest fits perfectly into the baby's small hands making it easier to stand up. Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland – all under strict designers' supervision.
