KUTIKAI

FUNCTION

Together with the crib the chest of drawers makes one of the most desired elements of children's room furniture.

The style of the chest of drawers matches all other elements of the Roof Collection. It's height is the same as the crib's - to make it easier for the parents to take care of the child. It can be matched with the nappy changer and the tray with boxes for cosmetics, cotton swabs or nappies. Under the chest top there is a handy open shelf for most used items.

The chest comes with 4 unevenly arranged drawers (including one with a surprise opening).

DESIGN

The Roof Collection designed by Kutikai brings out the exceptional nature of plywood. It comes across the needs of a modern parent and truly makes children smile.

The rungs are unevenly arranged with varying width, the narrowest fits perfectly into the baby's small hands making it easier to stand up.

Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland - all under strict designers' supervision.
