## FUNCTION

The first months after baby's birth mean constant nursing and taking care of the baby's skin. It involves frequent nappy and clothes changing. That is why it is so important to have a comfortable space for these activities carried out a dozen times a day. The Kutikai nappy changer has been devised especially for this period of a newborn's life. It matches both the crib and chest of drawers (to which it can also be mounted permanently) and provides spacious and comfortable place both for the child and the parent. You can match some accessories to go together with the nappy changer: a waterproof mattress with linen or cotton cover will make a complete set.

## DESIGN

The Roof Collection designed by Kutikai brings out the exceptional nature of plywood. It comes across the needs of a modern parent and truly makes children smile. The rungs are unevenly arranged with varying width, the narrowest fits perfectly into the baby's small hands making it easier to stand up. Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland - all under strict designers' supervision.
