KUTIKAI

FUNCTION

This spacious wardrobe comes as a variation of the chest of drawers from which it evolved.

Its style matches all other elements of the Roof Collection.

The design started with the chest of drawers which evolved into additional capacious space for children's clothes. One of the upper segments is made of shelves, the other one hides a rack for hanging clothes. Below there is a handy open shelf for most used items.

The chest comes with 4 unevenly arranged drawers (including one with a surprise opening).

DESIGN

The Roof Collection designed by Kutikai brings out the exceptional nature of plywood. It comes across the needs of a modern parent and truly makes children smile.

The rungs are unevenly arranged with varying width, the narrowest fits perfectly into the baby's small hands making it easier to stand up.

Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland - all under strict designers' supervision.
