enviroment: Kutikai guarantees eco-friendly manufacturing process and safety of all materials used to manufacture this product.

KUTIKAI

FUNCTION

The safety rail that goes with the 120 x 60 bed is an alternative for babies that can already hop in and out of bed on their own but are not yet ready for a bigger bed and prefer to remain in a well-known space of familiar size.

The rail is very easy to mount and the bed can be transformed easily. After removing any of the bed walls the mattress blind should be mounted together with the safety rail that protects the child against falling out while sleeping.

DESIGN

The Peekaboo Collection designed by Kutikai is simple in form and has one distinctive feature - a hole which attracts children with its familiar shape and makes them want to explore what's on the other side or play peekaboo.

Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland under strict designers' supervision.

The collection also stands out for its legs covered with natural veneer - modified oak which make it exceptionally light.
