environment: Kutikai guarantees eco-friendly manufacturing process and safety of all materials used to manufacture this product.

KUTIKAI

FUNCTION

The round shape of the chair and legs, and the hole in the seat are a reference to the main theme of the Peekaboo Collection. Thanks to the oval shape it is very comfortable for children to seat on. The hole in the seat makes it easy to move the chair from place to place and hang Kutikai crayon bags and other accessories on it.

DESIGN

The Peekaboo Collection designed by Kutikai is simple in form and has one distinctive feature - a hole which attracts children with its familiar shape and makes them want to explore what's on the other side or play peekaboo.

Simple, safe, and practical, with a robust design, manufactured in a family carpenter shop in the south of Poland under strict designers' supervision.

The collection also stands out for its legs covered with natural veneer - modified oak which make it exceptionally light.
